The graphic features a blue background with a white illustration of three bacteriophages at the top left. The text 'BACTERIOPHAGE THERAPY SUMMIT' is prominently displayed in white. Below this, a message reads: 'Accelerate the Discovery & Translation of Bacteriophage Research into Targeted Therapeutics that Demonstrate Clinically Significant Results'. A white-bordered button with the text 'Find Out More' is centered below the message. At the bottom, a black bar contains the event dates 'August 27-28, 2020 | Digital Event' and the website 'www.bacteriophage-summit.com' in white text.

As the scientific community search for alternatives to broad spectrum antibiotics, phage therapy

has re-emerged as a viable solution to tackle the global health challenge of anti-microbial resistance.

As such, the 2nd Bacteriophage Therapy Summit returns digitally as a dedicated platform for leaders in industry and academia to accelerate the discovery and translation of bacteriophage research into targeted therapeutics that demonstrate clinically significant results.

With a heavy translationally focused agenda including how to overcome bacterial resistance scaling-up manufacturing and showing clinical efficacy this is your opportunity to join your peers to strengthen your product development pipelines and forge collaborations to unlock the full potential of bacteriophage therapeutics.

View the full event guide for further details on speakers, content and how to join those who paving the way for bacteriophage-based therapeutics!
